Summary

Full-stack Developer with solid experience in HTML, CSS, JavaScript, and React, capable of implementing robust front-end and back-end solutions. Proficient in building scalable, optimized, and high-performance web applications using modern technologies such as Node.js and REST APIs. My background in clinical psychology provides valuable insight into user needs, enhancing my approach to application development.

Experience

Ironhack   **June 2024 – Present**

Project: Doggy Inn
Technologies: HTML, CSS, JavaScript, React, Axios, Bootstrap, React Bootstrap, Leaflet, REST APIs.
Description: A React-based Single Page Application (SPA) with integrated CRUD operations connected to a simulated backend and an external API.

Ironhack   **June 2024 – Present**

Project: Mentemigrante
Technologies: React, React DOM, React Sketch Canvas, JavaScript, Axios, HTML, CSS, Bootstrap, Cloudinary.
Description: A mental health app for Latin American migrants in Europe. Users can create creative boards using React Sketch Canvas and store them via Cloudinary.

Freelancer   **February 2019 – Present**
Systemic Psychologist

- Conducting systemic therapy sessions for individuals and businesses, facilitating communication and conflict resolution.

- Applying narrative intervention techniques and solution-focused therapy to effectively address issues.

Education

Ironhack
Web Development

Bootcamp de **Desarrollo Web**, donde adquirí habilidades en **HTML**, **CSS**, **JavaScript**, y tecnologías avanzadas como **React** y **Node.js**, desarrollando aplicaciones interactivas y dinámicas.

Universitat de Barcelona   Master
Psicología Cognitivo Social

Universidad de las Americas
Psicología Clinica
